

DON'T WASTE OUR PLANET

Comenius Project 2012 - 2014

Turin Meeting: 6,7,8,9 November 2012

Teachers' Meeting

Partner Schools

- CC. De Noordgouw, Heerde, The Netherlands
- Istituto Professionale "Albe Steiner" Torino – Italy
- Staedt. Robert-Bosch-Fachoberschule für Wirtschaft, Verwaltung und Rechtspflege, München, Germany

Participants of meeting 5-9 November 2012, Turin

Partner schools:	Participants:
CC. De Noordgouw, Heerde, Netherland	Henk Kiezebrink
Istituto Professionale statale Albe Steiner, Torino, Italy	Ester Cerruti Alessandra Seita Antonio Saraceno Nadia Sanità Roberta Fogli Laura Tempesta
Staedt. Robert-Bosch- Fachoberschule für Wirtschaft, Verwaltung und Rechtspflege, Munich, Germany	Matthias Langer Anton Schicker Angelika Vetter

Agreements reached

Content of the project

- a) The general topic of the project is “Don't waste our planet”, that is, all the issues connected with environmental protection.
- b) The topic area for this year is “waste”
- c) The activities will be structured as follows: preparation of a topic in the partners' schools → common workshop consisting of: study visits, debate, interviews → final presentation of results
- d) Activities in each country will depend on the availability of facilities that can be visited, and strictly connected with local issues
- e) The first workshop will be held in Heerde from 25 February to 1st March 2013. The second workshop will be held in Munich from 13th to 19th April 2013
- f) For the following year new topics will be discussed at the meeting in Munich.
- g) After two years the final result will be a common website of the project.

1. Our communication platform is:

- e-mail. All students must write real names. If teachers write to students, they must always send a copy to the other teachers
- the common website (forum)
- Skype (Videoconferencing)

3. Videoconference

5. PLANNING of activities leading to workshop

action	deadline	Person/school in charge
Setting up of new website (suggestions for name of website urgently needed by 16 th November!): calendar. All schools fill in calendar with school holidays	End of November	Matthias and web team, Munich Then all partners
Website completed, ready for uploading of materials	End of December	Matthias and web team, Munich
Preparation of a digital folder for each country introducing different work teams, info, photos, contacts of coordinators (students and teachers), ways of communication	End of January	All partners
Creation of logos for the project. Students submit 5 logos to the other partners online, creators of logos must provide explanation for their choices (in a grid)	15 th December	Turin (2 classes: 4F and 4C)
100 students for each country vote the best logo. Creators of logos must provide explanation for their choices (in a grid)	15 th January	All partners
During a videoconference 3 partner schools communicate scores (the best 3 logos in each school are given 10-6-3 points). A winner is proclaimed	31 st January	All partners
Draft of a survey (15-20 multiple choice questions) about the students' "green" habits. 100 students per country participate	22 th November	Henk
Partners' comments/corrections → final questionnaire. Medium for survey: to be decided. Answers to the questionnaire should generate students' profiles	30 th November	All partners
Questions of survey ready	10 th December	Henk
Webquest about the segregation of rubbish (common practices) in the 3 cities involved in the project + comments	Before the workshop (by 25 th February)	All partners
Filling in of survey	20 th January	All partners
Production of pins with the project logo	25 th February	Turin

6. Workshop in Heerde, 25th February-1st March 2013

For each country 10-12 students and 2-3 teachers will participate

Transport: the possibility of hiring a bus will be considered

Transport from-to airport: will be considered if bus is shared and not too expensive

- Students from other countries bring materials and outcome of activities, slides for presentation will be actually prepared together during the workshop by an international group

– Possible visits: water cleaning facility; waste collection plant; second hand/charity shop.

– 3 main area of work, three work groups:

1. Video/photos, “triple” video interviews on questions and issues arisen during the workshop
2. Production of slides (presentation) on the results of survey; on those of webquest
3. Preparation of debate. Choosing appropriate statements for debate (i.e.: Buying second hand clothes is good for you and for the environment”), keeping the debate “alive” (preparation of arguments)

For each work group: approximately 10 students.

At the end of each workshop a freecard with a good practice, a key word or sentence will be designed by the Turin students

Other results that can be produced by the end of the 1st or 2nd year: flyer, stickers, e-book, sustainable product packaging.
